## TE PŪRONGO O NGĀ HEAMANA O TE POARI O HERITAGE NEW ZEALAND POUHERE TAONGA ME TE KAUNIHERA MĀORI O TE POUHERE TAONGA

E NGĀ IWI, E NGĀ MANA, E NGĀ KARANGATANGA MAHA O TE MOTU, KA HURI NGĀ MIHI KI A KOUTOU. TĒNĀ KOUTOU, TĒNĀ KOUTOU, TĒNĀ TĀTOU KATOĀ.

E hāpaitia ana tātou katoa ki runga i ngā pokohiwi o rātou, nā rātou i para te huarahi. Ka rangona te tika o taua kōrero i te kaha o te ngākau whakapuke, te kaikā me te ū o ngā tāngata o Aotearoa ia rā mō ngā wāhi me ngā whare tuku iho e whakangako ana i te whenua. He nui ake te tūnga o ēnei tohu whakamaumahara i te whakamaumaharatanga mō nehe; he tohu tūturu e whakaora ana i ngā āhuatanga e tautohu ana nō Aotearoa tātou. Ka manawanui tonu te mahi a Heritage New Zealand Pouhere Taonga ki te whakaū kia ora tonu ērā wāhi, mā te tautoko me te tohutohu ki ngā hunga katoa e whakatau ana i ngā kōwhiringa ka whai pānga ki ngā otinga haere ake nei mō aua wāhi.

Ko tētahi o ngā kaupapa kua tāruaruatia i te tau nei, ko te manawaroa i te aronga o te poautinitini. Ahakoa te piki o te pānga o Kowheori-19 – me ngā wero kua puta – ka mīharo te whakaata i te tino whānuitanga o ngā mahi kua oti puta noa i te motu i te tau kua pahure.

He nui ake tō mātou ū ki te toitūtanga o ngā rawa ahurea i te kimi kōrero mō ngā mahi e hiahiatia ana, kātahi te mahia atu; ka hāngai tonu ki te hora i ngā mōhiotanga mā te wānanga me te āwhina i ngā tāngata ki te kimi i ō rātou ake hononga ki ngā taonga. Ka kitea tēnei i ngā kaupapa e tautokona ana e te pūtea Mātauranga Māori. He mea whakaihiihi ki a mātou kia kite, kia tautoko hoki i ēnei kaupapa taonga tuku iho e arahina ana e ngā iwi puta noa i te motu, ina koa i waenga i ngā herenga o te urutā, he mea whakaihiihi ki a mātou te kitenga atu ki ngā whare me te Mātauranga Māori mōrearea e whakarauorahia ana.

Te rūma tuatahi mō te Kōmiti Whiriwhiri Take Māori kei te whare paremata, ko Matangireia ka eke ki tōna kotahi rau tau i tēnei tau. Tae ana ngā mahi penapena ki te horoi ngaio me te whakahou i ngā whakairo me ngā papa tukutuku e iwa o te rūma. E poho korerū ana mātou ki te ārahi i ēnei mahi, inarā ki te whakaako i tētahi atu ki te tiaki i ngā taonga, te tuari hoki i ngā kōrero me ngā hītori.

He maha ngā ara tuari, ako hoki i ngā kōrero. Nā ngā haukotinga o ngā haerenga ā-tinana, kua mīharo mātou ki te kaha tipu o te whakapāpā mai ki ā mātou pāpāho pāpori, putanga matihiko, tukunga ataata, pāhorangi, kauhaurangi hoki.

Tētahi atu mea hira ko tētahi o ngā taonga tānga reo Māori o mua, i hokona i te hoko kairapu e tētahi o ngā kaimahi kanohi hōmiromiro o Te Pouhere Taonga. Arā, ko te *Pukapuka o ngā Inoinga o te Hahi Ingarani, me ngā Himene Weteriana*, te ingoahe pukapuka o ngā inoi me ngā himene o te hāhi Weteriana, i tuhia katoatia ki te reo Māori. Ko te painga motuhake anō, i tāngia te puka i te Wesleyan Mission Press ki Māngungu, ā, ka hoki anō ki Māngungu ināianei.

He rā hira anō i te 25 o Poutūterangi mō Kemp House kei Kerikeri – tō tātou whare papa rākau tawhito rāwa – e whakanuia nei te 200 tau mai i te wā i tīmata ai te noho a te tangata i raro i tōna tuanui, me te kite i Aotearoa i te wā i rite ai te huri o tōna āhua mō āke tonu atu.

Kua tīmata kē te kaupapa Rainbow List, ki te whakapiki i te kanorau o te New Zealand Heritage List/Rārangi Kōrero mā te whakanui i ngā wāhi hira o ngā hapori LGBTTFQI+ (takatāpui wahine, takatāpui tāne, hōkakarua, whakawhitiira, fa'afafine, irakē, hōkakarere rānei).

## REPORT OF THE CHAIRS OF THE HERITAGE NEW ZEALAND POUHERE TAONGA BOARD AND MĀORI HERITAGE COUNCIL

E NGĀ IWI, E NGĀ MANA, E NGĀ KARANGATANGA MAHA O TE MOTU, KA HURI NGĀ MIHI KI A KOUTOU. TĒNĀ KOUTOU, TĒNĀ KOUTOU, TĒNĀ TĀTOU KATOĀ.

We all stand on the shoulders of those who have gone before us. This essential truth resonates in the depth of passion, enthusiasm and commitment that New Zealanders exhibit every day for ancestral sites and buildings that enrich our country's landscapes. These compelling visual reminders are more than monuments to the past; they are living testaments to the things that define us as New Zealanders. Heritage New Zealand Pouhere Taonga works persistently towards the ongoing survival of these places by supporting and advising all those making choices that affect future outcomes for them.

A recurring theme behind the year's work is resilience in the face of adversity. Despite the growing impact of Covid-19 – and the challenges this has presented – it is remarkable to reflect on the vast range of mahi that took place around the country over the past year.

Our commitment to cultural asset sustainability is more than just finding out what work is needed and doing it; it involves passing on what we know through wānanga and helping others connect with taonga more personally. This is evident in the projects supported by Mātauranga Māori funding. The opportunity to see and support these iwi-led heritage projects happening throughout the country, particularly in the face of pandemic restrictions, is exciting for us as we witness the revitalisation of vulnerable Mātauranga Māori and Māori built heritage.

Parliament's first dedicated Māori Affairs Select Committee room, Matangireia, celebrates its centenary this year.

Conservation work includes specialist cleaning and restoration of the room's carvings and nine tukutuku panels. We are proud to be guiding this work, especially in tutoring others in caring for the taonga, as well as through sharing stories and history.

There are many ways to share our stories and to learn. With limitations on physical visitation, we have seen impressive growth in engagement with our social media, digital publications, video productions, podcasts and webinars.

Another highlight was a piece of early reo Māori publishing heritage, purchased at auction by eagle-eyed Heritage New Zealand Pouhere Taonga staff. Entitled *Ko te Pukapuka o nga Inoinga o te Hahi Ingarani, me nga Himene Weteriana*, the Wesleyan prayer and hymn book is written entirely in reo Māori. Even more special is that it was printed at the Wesleyan Mission Press at Māngungu, and to the collection at Māngungu it now returns.

A special anniversary was marked on 25 March, with Kemp House in Kerikeri – our oldest timber building – celebrating 200 years since people first began to live under its roof and experience Aotearoa, at a time when it was on the cusp of changing forever.

The Rainbow List project is well underway with improving the New Zealand Heritage List's diversity by recognising sites of significance to Aotearoa New Zealand's LGBTQI+ (lesbian, gay, bisexual, transgender, takatāpui, fa'afafine, queer and intersex) communities.

He pōuri nui te poroporoaki ki te Kāwana Tianara o mua rā, ki Hōnora Kahurangi Cath Tizard GCMG GCVO DBE QSO i mate i te 31 o Whiringa-ā-nuku, 2021, nō muri iho i te māuiui roa. Ko Kahurangi Cath te Tiamana o tō mātou Poari mai i te tau 1997 ki 2002. Kei te maumaharatia ia mō tōna kaha ki te ārahi, tōna manawanui ka haere tahi me te raungāwari, tōna reka ki ngā mahi whakakatakata hoki.

I tēnei tau i kaha ai te rangirua, kua ngākau titikaha mātou mō te kaha o tō mātou rite ki te kawē tonu i tā mātou mahi ki te hapahapai i ngā taonga tuku iho o Aotearoa. E mihi mai ana mātou ki ō mātou hoa o te Poari me te Kaunihera Māori, ki ngā kaimahi pūmau, ngā kaitautoko me ngā manuhiri. Nā reira, e tika ana te kī, kua para te huarahi mō ā tātou tamariki mokopuna.

20 Whiringa-ā-nuku 2022

It was with great sadness that we marked the passing of former Governor-General, the Hon. Dame Cath Tizard GCMG GCVO DBE QSO on 31 October 2021, after a prolonged illness. Dame Cath was Chair of our Board from 1997-2002. She is remembered for her leadership and determination coupled with a down-to-earth approach and irrepressible sense of humour.

In a year marked by uncertainty, we are confident we are in a strong position to continue our significant role in advocating for Aotearoa New Zealand's heritage. We acknowledge with gratitude our fellow Board and Māori Heritage Council members, dedicated staff, supporters and visitors. Our children and children's children have strong shoulders on which to stand.

Kia mahi tahi tātou ki te manaaki i ngā taonga whakahirahira o ō tātou mātua tupuna.

Let us work together to care for the significant treasures of our ancestors.

## ORGANISATIONAL HEALTH AND CAPABILITY

### GOOD EMPLOYER COMPLIANCE

Heritage New Zealand Pouhere Taonga has comprehensive human resource management policies designed to comply with the principles of being a good employer, and other legislative requirements. Policies are available to staff electronically on the organisation's intranet. Human resources policies are updated annually.

The principle of consultation and involvement in policy development is enshrined in specific policies related to

decision-making, and roles and responsibilities. Turnover is 25% in the 2021-22 financial year compared to 10% in the 2020-21 financial year. This reflects a trend in both the public and private sectors and is attributed anecdotally to Covid-19 and lockdowns generating a desire for change.

The key activities of Heritage New Zealand Pouhere Taonga in 2021–22 against the seven key elements of being a 'good employer' are summarised below:

ELEMENT	HERITAGE NEW ZEALAND POUHERE TAONGA ACTIVITY
<b>1. LEADERSHIP, ACCOUNTABILITY AND CULTURE</b>	<p>The Chief Executive continues to provide leadership and consistent messages by:</p> <ul style="list-style-type: none"> <li>• providing a weekly email to all staff (prepared by Acting Chief Executive in his absence)</li> <li>• addressing all induction forums for new staff</li> <li>• emphasising key messages at staff Rōpū, and</li> <li>• along with Deputy Chief Executives, actively taking part in staff activities and events, to demonstrate the 'tīma kotahi' (one team) principle actively promoted by the organisation.</li> </ul> <p>The Executive Team has collective responsibility for providing strategic leadership and accountability for the organisation's activities.</p> <p>Heritage New Zealand Pouhere Taonga is a bicultural organisation and provides regular training to staff in the areas of tikanga, te ao Māori and te reo Māori. This financial year further training courses have been provided to employees in a number of locations across the country. Online tailored training courses were delivered to 50 property-based staff who are based in remote areas.</p> <p>Heritage New Zealand Pouhere Taonga has developed and regularly reviews a Te Reo Māori Language Plan – E Tipu Te Waerenga. This plan underpins and sets the programme of work around te reo Māori language revitalisation through Pouhere Reo language training, outreach, properties programmes and dedicated work with iwi, hapū, whānau and hapori.</p> <p>All teams have their own E Tipu Te Waerenga action plan which provides guidance and expectations in the day-to-day implementation of the plan in their area of work. In some offices and properties staff meet regularly to practise their te reo and waiata.</p> <p>All positions in the organisation have te reo Māori titles, which are used on business cards and emails.</p>
<b>2. RECRUITMENT, SELECTION AND INDUCTION</b>	<p>Heritage New Zealand Pouhere Taonga has a robust and transparent recruitment policy and selection process. An interviewee may bring a support person to an interview if desired.</p> <p>Recruitment has been challenging at times due to low unemployment numbers and this has led to alternatives other than usual recruitment practices being explored e.g. secondments, internships.</p> <p>During 2021–22, two induction forums were held for new staff. These two-day programmes are part of the standard longer-term induction process that provides a clear understanding of the organisation's vision, work and culture. These forums are well received by the attendees. The induction programme is updated and reviewed after each forum and feedback sought from participants.</p>

<b>4. FLEXIBILITY AND WORK DESIGN</b>	<p>While the organisation's multi-disciplinary approach requires staff to be available during core office hours, part-time and flexible options are considered.</p> <p>The number of staff with flexible working conditions as part of their employment has continued to increase post-lockdowns, with staff working from home some days of the week. ## 7. SAFE AND HEALTHY ENVIRONMENT

Management remains a priority in this crucial part of our organisation's responsibilities. Health and Safety information is provided at all Board meetings. An organisation wide Risk Register, which has a health safety and wellbeing component, is presented at the Audit and Risk Committee meetings.

All accidents and near misses are recorded on an Accident Register and lessons learned are implemented.

A log of updated emergency contacts is held for all staff who can be contacted quickly in the case of emergency through the Vodafone multi-text system. Managers also operate a telephone tree system when required.

Staff are advised to stay home when they are unwell. This is an important mitigation to lessen the spread of Covid-19, and flu in particular, in the workplace.

There is a very proactive and effective Health and Safety Committee, which meets monthly. The committee communicates regularly with staff and provides advice and shares resources on health, safety and wellbeing matters.

A safe work environment is promoted by providing staff with:

- Reimbursement for flu vaccinations
- An annual wellbeing allowance
- Workplace assessments as required
- Civil defence and first aid equipment at all sites
- Ensuring all workplaces have staff with first aid qualifications. First aid training is available to any staff member who wants to obtain a first aid certificate.
- Site Safe and or Hazard/risk management training to staff who require it for their roles
- The opportunities to raise workload issues with their manager
- An employee assistance programme provided by Vitae Ltd, which was accessed by 7% of staff in 2021–22.

## **VOLUNTEERS TO HERITAGE NEW ZEALAND POUHERE TAONGA**

In 2021–22, Heritage New Zealand Pouhere Taonga had 148 volunteers who provided approximately 8,935 volunteer hours. We are grateful for the immense contribution of our volunteers. Without their assistance we would be challenged to achieve the outcomes our supporters expect. There were also three student placements, providing a further 516 hours. Both the number of placements and hours worked have decreased significantly this year because of Covid-19 and lockdowns, particularly in the North.

The Heritage New Zealand Pouhere Taonga regional and area offices work closely with local volunteer heritage organisations to deliver positive heritage outcomes, including Historic Places Aotearoa and other groups whose members may have previously belonged to New Zealand Historic Places Trust Branch Committees.

## STATEMENT OF SERVICE PERFORMANCE

for the year ended 30 June 2022

In keeping with our 2021-22 Statement of Performance Expectations, the following statement categorises the outputs under the three Arts, Culture and Heritage Sector Strategic Framework Priorities:

1. All New Zealanders can access and participate in cultural experiences.
2. The cultural sector is supported and growing sustainably.
3. New Zealanders share a distinct and inclusive identity and value our history and traditions.

The overarching themes are the alignment with the Heritage New Zealand Pouhere Taonga Strategy and the impact of Covid-19.

### HERITAGE NEW ZEALAND POUHERE TAONGA STRATEGY

In 2020-21, the Heritage New Zealand Pouhere Taonga Board and Māori Heritage Council developed a new Strategy to guide the organisation's work, which is embedded in our 2021-22 Statement of Performance Expectations. This Strategy emphasises the mission of Heritage New Zealand Pouhere Taonga as being to:

- ensure that our bicultural history is understood by New Zealanders and all peoples:
- Ko te pae tawhiti, whāia kia tata. Ko te pae tata, whakamaua kia tīna.  
Seek you the distant horizon to bring it close, the horizon that is close hold fast.

An increased emphasis on Māori heritage values is a significant achievement across all our KPIs, signalling early success in making the strategic shift our Strategy envisages.

### COVID-19 IMPACT

Heritage New Zealand Pouhere Taonga continued to contribute strongly to New Zealand's economic and cultural wellbeing, and recovery, during the Covid-19 pandemic. As this statement shows, throughout the pandemic we have continued to meet all our regulatory responsibilities to an exemplary standard and in accordance with statutory timeframes.

However, the cumulative impacts of the ongoing Covid-19 pandemic became more visible and more acute as the year progressed. Inevitably our public-facing work was heavily impacted: travelling, visiting heritage places, hosting visitors at our properties, events, engaging with iwi on marae (many of which were closed for much of the year), meeting with community groups and individuals were all significantly curtailed.

Despite the eventual relaxation of Covid-19 restrictions, throughout the year many people remained cautious about travelling, hui and visiting public places. Finally, as the restrictions eased and public engagement increased, all New Zealanders, including our staff, faced disruption resulting from illness and the periods of isolation needed to manage outbreaks of Covid-19.

## HERITAGE NEW ZEALAND POUHERE TAONGA KEY PRIORITY OUTPUTS 2021–22

### PRIORITY: ALL NEW ZEALANDERS CAN ACCESS AND PARTICIPATE IN CULTURAL EXPERIENCES

By its very nature, access and participation with heritage places requires public engagement and travel, both of which were heavily restricted this year. Nonetheless, in keeping with the intent of our Strategy, we achieved an uplift in Māori heritage engagement as a proportion of our overall engagement activity. We also continued to grow our digital presence in response to the Covid-19 pandemic, continuing the trend towards digital engagement with heritage places that we have reported before.

#### INDICATOR 1: INCREASE IN VISITOR NUMBERS AT HERITAGE NEW ZEALAND POUHERE TAONGA STAFFED PROPERTIES

Covid-19 had a more significant impact on the number of visitors to Heritage New Zealand Pouhere Taonga properties than we had envisaged. This meant we did not meet our estimate of 180,000, attracting just over two-thirds of that number (124,910 visitors).

The reasons are clear: Covid-19 resulted in various closures of our properties and restricted travel and visitor numbers. Auckland and Northland in particular, home to many of our popular heritage visitor attractions, were subject to lockdowns from August 2021. Even as restrictions eased, many people remained cautious about traveling and visiting public places. More recently, the relatively high rates of Covid infection, and concerns about contracting Covid-19, have impacted visitor numbers.

Graph 1 compares visitor numbers over five years, from the unconstrained international tourism of 2018–19, through to March 2020, when Covid-19 restrictions were first introduced.

As our borders fully reopen to international tourists, and more New Zealanders travel, these numbers will improve. However, along with the rest of the tourism sector, we anticipate it will be many years before visitor numbers return to pre-Covid levels (296,163 in 2018–19). In the meantime, we continue to offer and further develop our high-quality visitor experiences in anticipation of the increased visitor numbers we know will return as circumstances improve.

Graph 1: Cumulative visitor numbers (staffed properties)

#### INDICATOR 2: MUSEUMS AOTEAROA SURVEY RESPONDENTS WHO RATE THE QUALITY OF THEIR VISIT TO HERITAGE NEW ZEALAND POUHERE TAONGA STAFFED PROPERTIES AS 'SATISFIED' OR HIGHER

Conscious of the public health risks of face-to-face engagement, and the lower visitor numbers, we converted our annual in-person Museums Aotearoa visitor satisfaction survey to a written questionnaire for visitors to complete. We ran our written survey over a three-month period (February–April 2022), completing approximately 600 questionnaires compared with 348 in-person surveys last year.

The result, a visitor satisfaction rating of more than 99%, is several percentage points above our estimate of 97%. Given that New Zealand's borders were closed during the survey, we can only conclude that this reflects the exceptional relationship our domestic tourists have with our properties and our property staff.

Our detailed survey data, which specifies who completed the questionnaire by age, gender and ethnicity, is broadly consistent with both last year's results and the 2021–22 Museums Aotearoa visitor survey data, collected from museums and galleries located throughout New Zealand.

**Age:** Most visitors who completed our questionnaire were aged between 55 and 74, and well over one-third were aged between 15 and 54. This age profile is similar to the overall result for the full Museums Aotearoa visitor survey.

### INDICATOR 3: HERITAGE NEW ZEALAND POUHERE TAONGA PARTNERS WITH OTHERS ON HERITAGE ENGAGEMENT INITIATIVES

We made a concerted effort to partner with others wherever this was possible, achieving a creditable 43 partnerships but not the 60 partnerships we had estimated. Highlights included:

- the Ng King interpretation and on-site working-bee with the Ashburton District Council and descendants of Ng King Brothers at the Chinese Market Garden Settlement, Ashburton
- working with Auckland Libraries and the Clendon whānau to nominate the Clendon Papers for inclusion on the UNESCO Memory of the World programme, including Captain James Reddy Clendon's copy of the Treaty of Waitangi/Te Tiriti o Waitangi and other early documents in te reo Māori
- a partnership with the New Zealand Archaeological Association to promote archaeology, including social media posts on 'Women in Archaeology', podcasts on archaeology, social media posts, and oral history with archaeologists
- collaborating on a 'World War 2 in Northland' display at Kiwi North Museum
- developing and piloting a 'History of the French in Northland' boat tour with iwi and Heritage Northland.

### INDICATOR 4: HERITAGE NEW ZEALAND POUHERE TAONGA HOLDS OR CONTRIBUTES TO EVENTS TO ENHANCE ENGAGEMENT WITH HERITAGE

We fell just short of our ambitious target of 230 public events during the Covid-19 pandemic, holding 221 events. This includes:

- a 'Learned Lecture' series at Totara Estate, including a lecture from curators at the North Otago Museum and Forrester Gallery on their favourite collection with a connection to Totara Estate
- live operating days at Hayes Engineering Works and Homestead, featuring the fully operational 20th-century engineering workshop
- a guided walk around the Cuba Street area highlighting properties with an LGBTTFQI+ history
- public concerts at Old St Paul's, Wellington, featuring Nadia Reid, Don McGlashan, and many others
- events to celebrate the listing of historic places, such as Casa Nova in Oamaru.

We were delighted that we exceeded our estimate of 15% of events focused on Māori heritage. Highlights included:

- a range of Matariki events at our properties, including a Matariki crafts event at Kemp House, Kerikeri, a Matariki event for neighbours of Antrim House, Wellington, and a Matariki hākari (feast) at Te Whare Waiutuutu Kate Sheppard House, Christchurch
- the annual fish-trap event, near Kerikeri, a hands-on experience where young people use a traditional Māori fish trap
- opening our properties free to the public on Waitangi Day, providing an opportunity to talk about te Tiriti/the Treaty, including the signing of te Tiriti/the Treaty at two properties we manage (Māngungu Mission and Te Waimate Mission, both in Northland)
- developing an exhibition on the Mangahawea excavation with hapū for display at the Russell Museum Whare Taonga o Kororāreka.

It was not possible to meet the target of 25% of school education events, though we achieved a credible 18.5%, offering a rich programme of events for children, including:

- a programme of school visits to our staffed heritage properties
- school education events highlighting other heritage places, such as the Peria School visit to Waikainga Pā, Northland
- heritage diorama workshops at schools (and the development of online teachers' resources on creating heritage dioramas).

### INDICATOR 5: INCREASE IN ENGAGEMENT IN HERITAGE NEW ZEALAND POUHERE TAONGA DIGITAL AND HARD COPY CONTENT

Heritage New Zealand Pouhere Taonga publishes: a quarterly magazine *Heritage New Zealand*; a quarterly newsletter *Heritage Quarterly*; a monthly e-newsletter *Heritage This Month*; an online members club; media features; and press releases.

Hard copy readership of our magazine still outstrips digital (7,963 compared with 2,286). Though in keeping with a trend towards digital readership, there was a small decline in the uptake of hard copies, and we did not achieve our estimate for hard copy circulation (10,200).

In whatever format it is read, the magazine remains a membership favourite. Editions published in 2021-22 featured stories as diverse as pre-European Māori gardening, climate change (including fire prevention strategies and adapting/retrofitting heritage buildings) and historic graffiti at heritage properties.

o ngā kōrero pērā ki te mahi māra Māori i ngā wā o nehe, te hurihanga o te āhuarangi (tae ana ki ngā rautaki ārai ahi, te whakahounga hoki o ngā whare tuku iho) ngā toi karawhiti kei ngā wāhi tuku iho hoki.

Pleasingly, we exceeded all our KPIs for digital engagement, achieving a 28.1% increase in the number of Facebook followers, and a 30.3% increase in webpage views. Digital readership of our magazine, *Heritage New Zealand*, also increased.

Recognising the growing importance of digital engagement, we started a major project to refresh our website, which

will go live in the 2022-23 financial year. In the meantime, and in response to Covid-19 challenges, we launched a new website promoting our heritage properties to the domestic tourism market. It includes refreshed images and stories of our properties and travel itineraries that showcase a diverse array of tourist attractions in each region of New Zealand (see: <https://visitheritage.co.nz/>).

PRIORITY: THE CULTURAL SECTOR IS SUPPORTED AND GROWING SUSTAINABLY

We report below on how effective we have been in supporting and growing the cultural sector by caring for our heritage property portfolio, fulfilling our statutory responsibilities for heritage places, and meeting regulatory timeframes.

INDICATOR 6: HERITAGE NEW ZEALAND POUHERE TAONGA HERITAGE PROPERTIES ARE CARED FOR

Heritage New Zealand Pouhere Taonga cares for one of New Zealand’s most important portfolios of heritage properties, which to the extent possible we maintain as an exemplar of heritage conservation practice.

This involves using an asset management system to estimate the lifespan of each individual component of our properties and calculating when the components are likely to need repair or replacing. The system has five life-span categories ranging from ‘Very Good’ (an estimated 100% to 55% of useful life remaining) to ‘Very Poor’ (11% to 0% of useful life remaining) and does not discriminate as to the affordability of the works required. We give priority to work on components graded as ‘Poor’ or ‘Very Poor,’ which are within the last 20% of their estimated useful life.

This year we again achieved our estimate of 97% of asset components reaching the ‘Moderate’ condition grade or above, the same percentage as last year. The graph below shows a breakdown.

None of these results include the Hokitika Government Building (also known as Seddon House), which was only recently added to our property portfolio and will be undergoing extensive conservation works. Once these works are completed, we will include the building in our assessments.

Graph 2: Total property asset component condition

<sup>6</sup> Along with our Mātauranga Māori Te Awe Kōtuku programme, work on this property is funded through a separate appropriation under contract. It does not form part of our general Statement of Service Performance. However, we report on it here (and in KPI 17) to provide a fuller picture of the work we are undertaking for the Crown.

Highlights of our heritage property management work in 2021-22 include our work towards upgrading and strengthening the Hokitika Government Building, as well as Turnbull House, Wellington, and planning for our next major capital project: Antrim House, Wellington. All these properties are Category 1 historic places on the New Zealand Heritage List/Rārangi Kōrero.

Turnbull House, Wellington

In 2017, the Government transferred management of Turnbull House to Heritage New Zealand Pouhere Taonga. Located at the heart of Wellington’s historic government precinct, this former home of bibliophile Alexander Turnbull (and later home to the Turnbull Library), has sat unoccupied and awaiting earthquake strengthening since 2012.

In November 2021, we completed temporary mitigation works, which will remain in place until permanent strengthening and other works are completed. We were delighted to receive funding to strengthen and upgrade the building in Budget 2022. Working with the Ministry of Business, Innovation and Employment Hikina Whakatutuki (MBIE), we are nearing completion of procurement for structural engineering, conservation architecture and other professional services for the design phase of the project.

Hokitika Government Building<sup>6</sup>

Acting for the Crown, Heritage New Zealand Pouhere Taonga purchased the Hokitika Government Building in 2020-21 with a view to strengthening, upgrading and re-using this heritage building. By the end of this financial year the preliminary structural design was well underway, and we had started temporary securing works. This will be followed by interim remediation to address leaks and make the site safe for construction work. Again, working with MBIE, we are procuring specialist professional services for this project.

Antrim House, Wellington

The work proposed on Antrim House comprises replacing the roof, some seismic strengthening and the repainting of the exterior. Originally the home of successful businessman Robert Hannah (founder of the shoe company) and family, Antrim House is now the National Office of Heritage New Zealand Pouhere Taonga. Painting of the outbuildings (the former stables/garage and glasshouse) started this year, and the major works are scheduled for 2022-23. This project is partly funded by a grant from the Lottery Grants Board, a very generous bequest, and a members’ fundraising campaign.

### Covid-19 impacts

The above achievements were even more notable given the Covid-19 challenges. Like other property managers, we confronted the challenges of rising construction costs, supply chain issues, and competition in securing contractors in a tight labour market.

We faced Covid-19-related challenges of a quite different kind when three of our Wellington properties (the Old Government Buildings, Turnbull House and Old St Paul's) were put at risk during a Covid-19-related protest in the Parliamentary precinct (7 February-2 March 2022). Thankfully, an attempt to set fire to the Old Government Buildings was thwarted. However, costly remedial works were required to its grounds, such as removal of biohazards (including removal of an illegally constructed long-drop), repaving in the carpark and repairs to lamp posts.

### INDICATOR 7: NEW ZEALAND'S HERITAGE IS PROTECTED THROUGH DISTRICT PLANS (TRIENNIAL REPORT)

This year we completed our triennial review of district plans. Only four proposed district plans were notified during the period under review (July 2018 – July 2021), meaning that there was understandably little change from our last review in the overall results across the 64 district plans we assessed.

The proportion of all plans containing Heritage New Zealand List/Rārangī Kōrero entries remains at around one-third, though councils are also identifying heritage places that HNZPT has not listed, further enhancing heritage management. Since the 2018 assessment, local authorities have added over 1,000 heritage items to schedules and identified that 1,500 sites (most already on schedules) are of significance to Māori.

The review found that our estimate that 75% of plans would provide protection for built heritage was not achieved, though this year's result (73%) is a marginal improvement over the previous result (72%).

In 2021, we reported that there is a lower standard of regulation nationwide for Māori heritage than for scheduled built heritage. Unfortunately, this year's review found there has been no improvement. However, some plans are introducing innovative approaches to recognise Māori cultural landscapes as overlays with rules targeted to the values and the effects of the activities. This approach is promising, and we will be encouraging its adoption more widely.

The number of plans with incentives to encourage the retention and care of heritage places remained at 59%. Our optimistic estimate of 70% was not achieved.

### Improving future results

With a view to improving future results, in August 2021 we lodged a submission on the exposure draft of the Natural and Built Environments Bill. We supported the Bill's general intent but sought stronger protection for cultural heritage. We continue to liaise with Manatū Taonga Ministry for Culture and Heritage on the progress of the Bill and look forward to making a further submission when it is referred to a Select Committee.

We also had a significant role in shaping the heritage content of the Government's draft Te Mahere Urutaunga Ā-Motu (Tuhinga Hukihuki): Draft National Adaptation Plan. The draft plan includes many of our suggestions such as producing guidance for disaster risk management and assessing the exposure and vulnerability of cultural assets/taonga.

### INDICATOR 8: NUMBER OF HERITAGE PLACES WHERE PROTECTION IS INCREASED, OR DAMAGE IS REDUCED, WHERE HERITAGE NEW ZEALAND POUHERE TAONGA HAS ADVOCATED FOR HERITAGE TO BE CONSIDERED

This year we again achieved more protection than we estimated through submissions to local government policies, plans and processes. A total of 522 heritage sites were protected, similar to last year's 520, and significantly more than our estimate of 300.

This KPI (indicator) includes the work we do with Crown agencies to develop heritage protection measures for heritage places subject to disposal (the 'Crown land disposal process'). In 2021-22, we assessed 135 properties under this process, confirming that protection is in place for one property with special heritage values. We continued to achieve good outcomes for heritage through participation in the accelerated consenting process established by the Covid-19 Recovery (Fast-track Consenting) Act 2020. In particular, we ensured that appropriate Accidental Discovery Protocols are in place to safeguard archaeological material.

These achievements are supported by our broader advocacy programme and publications. To assist councils in meeting their heritage obligations, we completed three guides for publication that cover the heritage content of Regional Policy Statements, Regional Plans and District Plans. These guides will be updated when the Resource Management reforms are completed. To assist owners, we published a comprehensive guide on disaster risk management plans, based on our own experience preparing plans for prospective National Historic Landmarks/Ngā Manawhenua o Aotearoa me ōna Kōrero Tūturu.

#### **INDICATOR 9: THE ARCHAEOLOGICAL AUTHORITY PROCESS RESULTS IN INFORMATION ON NEW ZEALAND'S ARCHAEOLOGICAL HERITAGE**

Under the Heritage New Zealand Pouhere Taonga Act 2014, any activity that may disturb an archaeological site requires an authority from Heritage New Zealand Pouhere Taonga. In the 2021-22 financial year we processed 629 authorities, roughly the same number as in the previous year (639). This follows a steady increase in authorities over recent years (we processed 586 authorities in 2019-20, 549 in 2018-19 and 508 in 2017-18<sup>7</sup>). We are keeping a watching brief on whether numbers have peaked or, more likely, the upward trend has plateaued during the Covid-19 pandemic and as a result of market forces slowing.

Once again we fell just short of our KPI estimate of 80% of authorities resulting in reports over the preceding decade, measured in calendar years, achieving a result of 78% (79% in the result reported in the previous year).<sup>8</sup> In 2022-23 we will be putting in place a comprehensive action plan to improve compliance with authority conditions requiring final reports.

We exceeded by a significant margin our KPI for the number of archaeological authorities that result in receipt of Māori heritage reports: 67% rather than 48% (an increase of 6% over last year's result of 61%).

#### **INDICATOR 10: HERITAGE NEW ZEALAND POUHERE TAONGA SUPPORTS OWNERS OF HERITAGE THROUGH THE NATIONAL HERITAGE PRESERVATION INCENTIVE FUND**

The National Heritage Preservation Incentive Fund supports private owners of nationally significant heritage. The fund's investment priorities this year were:

- conservation and preservation of sites of significance to Māori
- conservation work to increase resilience of heritage places against the impacts of climate change, including site stabilisation relating to land and archaeological sites
- risk management planning.

In August 2021, the Heritage New Zealand Pouhere Taonga Board approved financial support for the owners of 22 listed heritage places (from 32 applications), allocating \$594,300<sup>9</sup>. These grants enable owners to undertake essential work they may not otherwise be able to afford or may need to delay until funding is available. Projects include repairing and replacing rooves, walls and plasterwork, and conserving a staircase and lobby floor.

Given the nature of the work involved, these projects usually take some time to be completed. To date, payment has been made for one project that was allocated a grant in 2021-22,

the survey of the main dome of the Dominion Building, Wellington, a Category 2 historic place.

For a full list of grants accepted by owners see: [www.heritage.org.nz/protecting-heritage/funding/national-heritage-preservation-incentive-fund/approved-grants](http://www.heritage.org.nz/protecting-heritage/funding/national-heritage-preservation-incentive-fund/approved-grants)

#### **INDICATOR 11: HERITAGE NEW ZEALAND POUHERE TAONGA HAS A COLLABORATIVE RELATIONSHIP WITH SPECIFIED IWI, HAPŪ OR HAPORI INVOLVING A PROGRAMME OF WORK TO RECOGNISE, CONSERVE OR INCREASE ENGAGEMENT WITH MĀORI BUILT AND LAND-BASED HERITAGE**

This KPI was achieved. Projects completed include:

- an oral history recording project with Whangaroa Papa Hapū, Northland, complementing our collaboration with Whangaroa Papa Hapū on a listing programme in their rohe
- the Tapahuarau Pā stabilisation project, Ōhaeawai, Northland, comprising work to investigate the geotechnical issues affecting the pā and stabilise it with native plantings
- assisting hāpori (Ngāti Porou) to retrieve kōiwi affected by coastal erosion at Anaura Bay, Te Tairāwhiti
- a programme of work with Ngāti Te Ata and Ngāti Tamaoho in the Tāmaki region to develop procedures to appropriately manage kōiwi discoveries in the rohe, including developing resource guides
- a programme of work with hāpori of Ngāti Hāua, Upper Whanganui Region, to conduct an archaeological survey of Rurumaikatea, a wāhi tapu site, to help identify features to help protect and manage it.

#### **Matangireia, Parliament House, Wellington**

A special focus of our conservation work was our collaboration with Parliament and tangata whenua on the restoration of Matangireia, the first Select Committee room dedicated to the affairs of Māori. This work, which marks the room's centenary, was well advanced by the end of the financial year and will be completed in 2022-23.

The room showcases the skill of two historic master carvers from Te Arawa: Te Kiwi Henare Mete Amohau of Ngāti Whakaue and Te Ngaru Ranapia of Ngāti Pikiao. Original features from 1922 include tukutuku and a large mural of a whare rūnanga. These and more recent features are being expertly conserved.

At the project's first wānanga, Zealandia Te Māra a Tāne – along with Taranaki Whānui ki te Upoko o te Ika, Te Āti Awa, and Ngāti Toa Rangatira – gifted the kiekie needed to restore the tukutuku. The kiekie was gathered from Zealandia later in May. A further two wānanga have been dedicated to

#### **Mātauranga Māori Te Awe Kōtuku programme**

At the heart of our strategic deliverables under this KPI is our Mātauranga Māori Te Awe Kōtuku programme, which is delivered under separate contract (see KPI 16).<sup>10</sup>

This programme has two workstreams, both of which help to revitalise vulnerable mātauranga Māori: ancestral landscapes and Māori built heritage. Each work stream comprises four pou here wānanga: forums that engage with pūkenga to co-design pou arataki wānanga on selected themes. Both workstreams comprise ten pou arataki wānanga: practical wānanga for whānau, hapū and iwi, that ensure the retention and sustainability of mātauranga Māori.

This year we completed the eight pou here wānanga we were contracted to deliver, laying a solid foundation for the pou arataki wānanga. We also held three pou arataki wānanga but were not able to achieve the estimated 12 because of Covid-19-related restrictions and concerns. We will hold the remaining pou arataki wānanga in 2022-23.

A contestable grants programme is part of this programme. In November/December we awarded ten ancestral landscape grants to help retain and transmit kōrero tuku iho and traditional practices across four broad areas: cultural mapping, maramataka, waka haerenga and kōhatu. We also awarded ten Māori built heritage grants across four built heritage areas: traditional buildings, tārai waka, mahinga kai and māra kai.

Highlights of the grants round included the launch of 'Ngā Tapuwae – in the footsteps of the ancestors' in January 2022. The cultural mapping project documents two wāhi tapu: Rangitāne Pā, the home of Te Whānau a Hunaara, and Materehua Pā, the ancestral home of Te Whānau a Tarawhiti.

For a list of successful applicants see: [www.heritage.org.nz/news-and-events/blog/matauranga-maori-grant-awardees-2021](http://www.heritage.org.nz/news-and-events/blog/matauranga-maori-grant-awardees-2021)

Four internships are an integral part of this project, further transmitting important mātauranga Māori and building skills and capability.

#### **INDICATOR 12: HERITAGE NEW ZEALAND POUHERE TAONGA COMPLETES REGULATORY AND ADVISORY WORK IN THE REQUIRED TIMEFRAMES**

Given the importance of our regulatory services, Heritage New Zealand Pouhere Taonga is proud to have met its KPI of completing 99% of all applications to statutory timeframes. This was a significant achievement in the face of Covid-19-related closures and staff absences. As in last year's report, our data includes figures for both timeliness in accepting and returning authority applications and in processing the accepted applications.

<sup>10</sup> Although the programme does not form part of the Statement of Service Performance, we report on it here to provide a fuller picture of the services we are providing to the Crown.

## PRIORITY: NEW ZEALANDERS SHARE A DISTINCT AND INCLUSIVE IDENTITY AND VALUE OUR HISTORY AND TRADITIONS

Heritage New Zealand Pouhere Taonga made considerable progress in recognising more heritage places that New Zealanders care about. We continued to develop the New Zealand Heritage List/Rārangi Kōrero, making new entries, upgrading reports on listed places and reviewing entries. We also continued to develop the Tohu Whenua programme, and to build the case for future National Historic Landmarks/Ngā Manawhenua o Aotearoa me ōna Kōrero Tūturu. Consistent with our organisational Strategy, in all this work we ensured that Māori heritage values and kōrero are prominent.

### INDICATOR 13: MORE OF THE HERITAGE THAT NEW ZEALANDERS CARE ABOUT IS INCLUDED ON THE NEW ZEALAND HERITAGE LIST/RĀRANGI KŌRERO

We made substantial progress in increasing the diversity of the New Zealand Heritage List/Rārangi Kōrero. This involved investing more time and resources in building relationships with iwi, hapū and hāpori to tell their stories. At times, our efforts were thwarted by Covid-19 restrictions and the natural reluctance of hāpori to engage during the pandemic. Unfortunately, this meant that we fell short of the estimates we had set, achieving:

- 5,815 total entries instead of the estimated 5,838
- 18 additions/reviews rather than the estimated 35
- Four listings endorsed by iwi/hapū rather than the estimated seven.

However, we maintained the overall proportion of places assessed as being of significance to Māori (23%) and we again exceeded our estimate of processing 50% of public applications (our result was 72%).

The focus on realigning our listing programme with our Strategy, which better recognises the diversity of New Zealand, significantly enriched the New Zealand Heritage List/Rārangi Kōrero. A sample of new listings makes the point:

- Te Kōhatu o Ripeka at Kōpuawhara Road, Māhia, was listed as a wāhi tapu area being a place of significance to wāhine Māori of Ngāti Rongomaiwahine, Ngāti Kahungunu and Rakaipaaka iwi because of its connection to the ritual application of moko kauae
- Tangitu, Ōtāngaroa State Forest, was listed as a wāhi tūpuna significant to the hapū of Whangaroa and Hokianga as a source of four important awa, the wāhi tūpuna being named after a kuia who tried to bring peace to her warring people

- Two artists' houses were each listed as a Category 1 historic place: the studio and home of renowned artist Ralph Hotere, Port Chalmers; and the Sutton House and garden, Christchurch, the home and studio of the notable Canterbury-based artist, William (Bill) Sutton
- Corban's Winery and Mt Lebanon Vineyards was listed as a Category 1 historic place, being founded in 1902 by winemaking pioneers from Lebanon, Assid Abraham Corban and his family, demonstrating the contribution of migrants from outside northern Europe to New Zealand's wine industry
- Onekaka Ironworks Quarries and Hydro-electric Power Station was listed as a category 2 historic place for its historical, technological and archaeological significance as a physical link to an ambitious iron mining and smelting scheme built in 1922 and 1929.

During the year we published one of our important wāhi tapu area reports as a booklet: the Hakikino, Waimārama, Wāhi Tapu Area Report (listed last financial year). We distributed the booklet to the hāpori who collaborated with us on this listing project, ensuring that the information could easily be shared with hapū and whānau. We will explore publication of other reports over time.

We also made substantial progress on our Rainbow List Project, launched last year. We updated 19 existing list entries to recognise queer stories, for example, recognising the Queen Victoria Statue, Auckland, as a key location in the country's first gay liberation protests in 1972.

We continued our leadership role with the Tohu Whenua programme,<sup>17</sup> investing more resources into supporting iwi to identify places to join the programme. The Tohu Whenua governance group approved Canterbury as the next region in which it will introduce Tohu Whenua. Finally, as noted, we continued our work on National Historic Landmarks/Ngā Manawhenua o Aotearoa me ōna Kōrero Tūturu, building the case for recognising more sites in future years, beyond the one existing Landmark: Te Pitowhenua/Waitangi Treaty Grounds.

### INDICATOR 14: HNZPT PROVIDES ACCESS TO REPORTS ON NEW ZEALAND'S HERITAGE

This indicator is a combined measure of the number of reports we make available that result from archaeological authority process and listing work. It is an important measure of public engagement with the heritage stories of New Zealand.

<sup>17</sup> Tohu Whenua is a partnership between Heritage New Zealand Pouhere Taonga, the Department of Conservation, Te Papa Atawhai and Manatū Taonga Ministry for Culture and Heritage. Tohu Whenua are the places that shaped Aotearoa New Zealand that offer some of our best heritage experiences.

National Historic Landmarks; me te whakatakoto i ngā take ki te āhukahuka i ētahi wāhi anō ā ngā tau kei te heke mai nei, kei tua i te Landmark kotahi anake o nāianei: Te Pitowhenua/ Waitangi Treaty Grounds.

We directed additional resourcing to digitising archaeological reports in our Archaeological Reports Digital Library to honour our commitment to make information publicly available. This ensured we met the overall estimate of 12,105 reports (both archaeological and listing reports), exceeding this estimate by 21 reports.

Currently our Digital Archaeological Reports Library provides ready online access to over 9,000 reports. We are committed to ensuring that sensitive information in these reports is redacted before publication.

**INDICATOR 15: RESEARCH NZ SURVEY  
RESPONDENTS WHO RATE THEIR PERSONAL  
INTEREST IN THE PROTECTION OF HISTORIC  
PLACES AS ‘INTERESTED’ (ANNUAL)**

Each year, Heritage New Zealand Pouhere Taonga commissions a survey to gauge New Zealanders’ interest in protecting the country’s heritage places and buildings.

We have in the past reported only the percentage of people who indicated they are ‘very interested’ in the protection of historic places (8-10 on a scale of 0-10 where 10 is the most interested). This year, to provide a fuller data picture, we also include the people who are ‘interested’ (that is, those who rated their interest as 5-7 on the survey scale). Together with those who are ‘very interested’, this brings the total percentage of people who are either ‘interested’ or ‘very interested’ to 88%. We will continue to report on this basis in future Statements of Service Performance.

We continue our reporting on the percentage of people who are very interested in protection of heritage by age, gender and ethnicity. The data is also similar to last year’s indicating a solid level of support for heritage protection across age, gender and ethnicity groupings.

## CONTRACTED COVID-19 RECOVERY PROJECTS: MĀTAURANGA MĀORI TE AWE KŌTUKU PROGRAMME AND HOKITIKA GOVERNMENT BUILDING UPGRADE

The two projects below are undertaken under separate contract and do not form part of this Statement of Service Performance. We include information about them in our Statement of Service Performance to provide a more complete data picture of our work. Commentary on these projects is provided on pages 37 and 43.

<sup>25</sup> The memorandum of understanding (MOU) for the Mātauranga Māori Te Awe Kōtuku programme is with Manatū Taonga Ministry for Culture and Heritage. The MOU for the upgrading of the Hokitika Government Building is with Crown Infrastructure Partners, not Manatū Taonga Ministry for Culture and Heritage as previously envisaged.

<sup>26</sup> The five pou here wānanga we held in 2021-22 complete the total of eight in our contract with Manatū Taonga Ministry for Culture and Heritage. We did not need to hold all six pou here wānanga we estimated for 2021-22 because in the previous year we held one more than anticipated.

FINANCIAL INFORMATION**

COMMENTARY ON THE FINANCIAL RESULT FOR 2022

The Statement of Financial Performance for the year to 30 June 2022 shows a surplus of \$0.3M against a budgeted loss of \$1.1M. To fully understand the result for the year, separating the various elements of our income and expenditure gives a clearer view of what happened in 2022. This is shown in the following chart:

\*Includes specified funds received exclusively for these programmes.

The chart shows a deficit for other or business-as-usual activities of \$0.5M against a budgeted deficit of \$1.6M. This variance of \$1.1M was caused largely by lower than planned personnel, marketing, and property maintenance costs.

It shows that the result against funded programmes was a net surplus of \$0.5M against budgeted net deficit of \$0.6M, a variance of \$1.1M. This is due to activities relating to the Tohu Whenua and Mātauranga Māori programmes being postponed until 2023 because of Covid-19.

All funded programmes are expected to be fully expended over time so surpluses reported in any one year are temporary.

In addition, grants made by Heritage New Zealand Pouhere Taonga exceeded budget by close to \$1M due to the allocation of grants from the Lewis Winter bequest, which was received in a prior year.

Bequest and specified fund income is highly variable from year to year and is generally received for specific purposes. Heritage New Zealand Pouhere Taonga relies on this income to fund significant maintenance projects and it is not used for business-as-usual activities.

A more in-depth explanation of the major variances against budget outlined above is provided under note 24.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2022

## 1. STATEMENT OF ACCOUNTING POLICIES

### REPORTING ENTITY

Heritage New Zealand Pouhere Taonga is a statutory body corporate established under section 9 of the Heritage New Zealand Pouhere Taonga Act 2014 and domiciled in New Zealand. It is an Autonomous Crown Entity for the purposes of Section 7 of the Crown Entities Act 2004 and its ultimate parent is the New Zealand Government. Heritage New Zealand Pouhere Taonga's registered office is at Antrim House, 63 Boulcott Street, Wellington.

Heritage New Zealand Pouhere Taonga's primary outcome is to ensure present and future generations of New Zealanders experience and enjoy a sense of place, identity and nationhood. Accordingly, Heritage New Zealand Pouhere Taonga has designated itself as a Public Benefit Entity (PBE) for financial reporting purposes.

The comparatives for 2021 are group actuals consolidating the results of the Canterbury Earthquake Heritage Building Trust, which was wound up on 30 June 2021 with net assets transferred to Heritage New Zealand Pouhere Taonga.

The financial statements for Heritage New Zealand Pouhere Taonga are for the year ended 30 June 2022 and were approved by the Board on 20 October 2022.

### BASIS OF PREPARATION

The financial statements are prepared on the basis that Heritage New Zealand Pouhere Taonga continues to be a going concern. Accounting policies have been applied consistently throughout the year.

### STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with the requirements of the Crown Entities Act 2004, which includes the requirement to comply with New Zealand generally accepted accounting practice (NZ GAAP).

The financial statements have been prepared in accordance with PBE Standards Reduced Disclosure Regime (RDR). The criteria under which an entity is eligible to report in accordance with PBE Standards RDR are the entity is not publicly accountable and has expenses less than \$30 million.

### MEASUREMENT BASE

The financial statements have been prepared on an historical cost basis, modified by the revaluation of certain property, plant and equipment.

### PRESENTATION CURRENCY AND ROUNDING

The financial statements are presented in New Zealand dollars and all numbers are rounded to the nearest thousand dollars (\$000s).

### SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies are included in the notes to which they relate. Significant accounting policies that do not relate to a specific note are outlined below.

### GOODS AND SERVICES TAX (GST)

All items in the financial statements are exclusive of GST with the exception of debtors and creditors, which are stated inclusive of GST. Where GST is not recoverable as input tax then it is recognised as part of the related asset or expense.

### INCOME TAX

Heritage New Zealand Pouhere Taonga is a public authority and consequently is exempt from the payment of income tax. Accordingly, no charge for income tax has been provided for.

### BUDGET FIGURES

The budget figures are derived from the Statement of Performance Expectations as approved by the Board at the beginning of the financial year. The budget figures have been prepared in accordance with NZ GAAP, using accounting policies that are consistent with those adopted by Heritage New Zealand Pouhere Taonga for the preparation of these financial statements. The budget figures presented throughout the financial statements are unaudited.

### ACCOUNTING JUDGEMENTS AND MAJOR SOURCES OF ESTIMATION UNCERTAINTY

In the application of Heritage New Zealand Pouhere Taonga's accounting policies, the Board is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Estimates and assumptions in relation to the valuation of heritage land, buildings and improvements are a key judgement and a different estimate would result in adjustments to the carrying amounts of assets (refer note 12).

**CHANGES IN ACCOUNTING POLICIES**

There have been no changes in accounting policies.

**STANDARDS ISSUED AND NOT EFFECTIVE AND NOT EARLY ADOPTED**

The XRB has issued the following Accounting Standards that are not yet effective and may be applicable to the Financial Statements of Heritage New Zealand Pouhere Taonga:

- PBE IPSAS 41: Financial Instruments (effective date January 2022)
- PBE FRS 48: Service Performance Reporting (effective date January 2022).

Management has decided not to early adopt PBE IPSAS 41: Financial Instruments, which will apply to the year ended 30 June 2023. Management has determined that this standard will have minimal impact on the financial statements. In addition, management has decided not to early adopt PBE FRS 48: Service Performance Reporting which is effective January 2022. This standard concerns the disclosure of service performance information and will not affect the financial statements.

**2. REVENUE**

Revenue is measured at the fair value of consideration received or receivable.

**NON-EXCHANGE REVENUE  
REVENUE FROM THE CROWN**

Heritage New Zealand Pouhere Taonga is funded by the Crown for the purposes set out in the Act and the Vote Arts Culture and Heritage appropriations as set out in its Statement of Intent.

As there are no conditions attached to the funding outside of these purposes it is recognised as revenue at the point of entitlement.

**DONATIONS AND BEQUESTS**

Donations and bequests received are recognised as revenue in the period they are received. However, those with restrictive conditions are recorded as Specified Funds and Bequests within equity (refer notes 7,8).

**GRANTS RECEIVED**

Grants are recognised when they become receivable unless there is an obligation to return the funds if conditions of the grant are not met. Where such an obligation exists, the grants are initially recorded as grants received in advance and recognised when conditions of the grant are satisfied.

**VESTED ASSETS**

Where a physical asset is gifted or acquired by Heritage New Zealand Pouhere Taonga for nil or nominal cost, the fair value of the asset is recognised as income when control over the asset is obtained.

**VOLUNTEER SERVICES**

Uncollectability is established when there is objective evidence that Heritage New Zealand Pouhere Taonga will not be able to collect amounts according to the original terms of the receivable. The amount of the provision is the difference between the carrying amount and the present value of the amounts expected to be collected.

## 11. INVENTORIES

Inventories held for commercial use are valued at the lower of cost or net realisable value after providing for obsolete items.

Inventories held for non-commercial use are measured at cost adjusted for any loss of service potential.

## PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment comprises land, land development, buildings, leasehold improvements, heritage artefacts and equipment including library items, displays and interpretation, office furniture and equipment.

Property, plant and equipment are shown at cost or valuation, less any accumulated depreciation and impairment losses.

Heritage New Zealand Pouhere Taonga has recognised interests in land and buildings in the following categories:

*(i) Heritage New Zealand Pouhere Taonga owned land and historic buildings*

These are properties for which the Heritage New Zealand Pouhere Taonga has freehold title.

*(ii) Vested land and historic buildings*

These properties have been formally vested to Heritage New Zealand Pouhere Taonga in terms of the Reserves Act 1977. A vesting order can only be revoked with the agreement of Heritage New Zealand Pouhere Taonga and consequently its interest is deemed to be permanent.

*(iii) Controlled and managed buildings*

These are properties for which Heritage New Zealand Pouhere Taonga has a control and management order from the Crown in terms of the Reserves Act 1977. These have been included as part of property, plant and equipment on the basis that the risks and rewards relating to this property rest with Heritage New Zealand Pouhere Taonga. However, the Crown can require Heritage New Zealand Pouhere Taonga to return these assets at any stage.

## REVALUATIONS

Due to the nature of Heritage New Zealand Pouhere Taonga's property portfolio it is difficult to obtain market valuation comparisons for many properties due to restrictions on their use and consequently there is a large degree of subjectivity inherent in the valuation process.

Heritage New Zealand Pouhere Taonga employs an independent valuer to revalue Heritage New Zealand Pouhere Taonga's property portfolio in line with the Crown accounting policies. Land and buildings are revalued every three years to ensure that the carrying amount does not differ materially from fair value. The last valuation was performed to June 2021. In the intervening years, enquiries are made of management to

<sup>30</sup> Includes Intangible assets of \$68,000 book value (2020: \$122,000).

<sup>31</sup> Independent valuations of all property were performed by Anna Lomas, Jonathon Dix, Chris McCashin and Ben Radich, appropriately qualified employees of Aon Valuation Services. Aon Valuation Services employs registered valuers who are qualified to undertake specialised building valuations and who are members of the Property Institute of New Zealand (PINZ) and New Zealand Institute of Valuers. Aon's valuers have recognised tertiary qualifications in the property sector as well as registration through the Valuers' Registration Board and the New Zealand Institute of Valuers (NZIV). The valuation was completed in accordance with NZ Public Benefit Entity International Public Sector Accounting Standard 17 (PBE IPSAS 17), Property Institute of New Zealand Guidance Papers and Code of Ethics, and Valuation Guidance for Cultural and Heritage Assets issued by the Treasury Accounting Policy Team.

establish if there are any factors that may have given rise to significant changes in valuations.

The valuations seek to maximise the use of relevant observable inputs and minimise the use of unobservable inputs in establishing fair value of land and buildings. In the instances where the valuer deems there to be an active and liquid market for an asset, and comparable rental and sales evidence is deemed sufficient to reliably measure fair value of the asset, the valuer utilises either the capitalised income, discounted cash flow and/or the direct comparison approach to valuation.

However, the majority of the Heritage New Zealand Pouhere Taonga portfolio comprises properties for which there is an absence of market transactions, and lack of a potential occupant or buyer market. For the most part, these properties are classified as Historic Purposes Reserves, have restrictive underlying zoning and/or are subject to Category 1 heritage classification, thereby restricting the current and future potential uses or development of the property. In accordance with the Valuation Guidance for Cultural and Heritage Assets prepared by the Treasury Accounting Policy Team, Depreciated Replacement Cost (Summation Approach) has been deemed the most appropriate basis for determination of fair value, as

fair value of the asset is not able to be reliably determined using market-based evidence due to the specialised or unique nature of the asset. Where possible, Aon Valuations Services has sought to maximise relevant market-based inputs in the valuation of these assets, by researching sales of surrounding land parcels (and making appropriate adjustments for the specific characteristics of the subject land), together with applying market-based depreciation rates to the physical improvements' replacement value.

Where land has a designation, restrictive zoning or covenant, Aon Valuation Services has adopted an 'Across the Fence Approach' to valuing the restrictive land. The Across the Fence Approach is where the zoning and highest and best use of land immediately surrounding the subject site is considered, and an allowance or discount applied to the subject for the restrictions on use or future development.

Other key assumptions inherent in the valuation are the estimated construction costs and useful lives that are used to calculate the replacement cost of buildings as part of the depreciated replacement cost calculations.

The construction rates were based on QV Costbuilder publication effective May 2021, historical construction costs

for the subject assets, together with Aon's in-house cost database. Estimated total lives and remaining useful lives for assets are based on physical inspection and observation by the valuer, and consultation with Heritage New Zealand Pouhere Taonga employees.

Heritage collections and objects are by nature specialised and are managed by Heritage New Zealand Pouhere Taonga in accordance with its general statement of policy and as required by the Heritage New Zealand Pouhere Taonga Act. These items are revalued and measured on a fair market or replacement value but are not depreciated. The latest valuation to 30 June 2022, part of a four-year rolling cycle, was conducted by registered valuers specialising in art and objects.

Heritage New Zealand Pouhere Taonga accounts for revaluations of property, plant and equipment on a class of asset basis. The results of revaluing are credited or debited to an asset revaluation and recognised as other comprehensive revenue and expense. Where this results in a debit balance in the asset revaluation reserve, this balance is expensed. Any subsequent increase on revaluation that offsets a previous decrease in value is recognised as part of the net surplus for the year, up to the amount previously expensed, and then credited to the revaluation reserve for that class of asset and shown as part of other comprehensive revenue and expense.

### ADDITIONS

The cost of property, plant and equipment is recognised as an asset when it is probable that associated future economic benefits or service potential will flow to Heritage New Zealand Pouhere Taonga and the cost can be measured reliably.

### SUBSEQUENT COSTS

Subsequent costs incurred by Heritage New Zealand Pouhere Taonga to restore property and plant to their original condition are capitalised. Expenditure to maintain these assets once renovation is complete is recognised in net surplus when incurred.

### DISPOSALS

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposal are included in the net surplus for the year. When revalued assets are sold, the amounts included in the revaluation reserves in respect of those assets are transferred to accumulated funds.

### DEPRECIATION

Depreciation is provided on a straight-line basis on all property, plant and equipment (other than land, heritage artefacts and library) at a rate that will write off the cost (or valuation) of the assets to their estimated residual value over their useful lives.

Heritage buildings owned, vested in or managed by Heritage New Zealand Pouhere Taonga are depreciated in accordance with PBE IPSAS 17. The useful lives and associated depreciation rates of major classes of assets have been estimated as follows.

Buildings	100 years
Land Development	15-50 years
Plant and Equipment	3-5 years
Displays & Interpretation	10 years
Other Assets	3 to 9 years

The residual value and useful life of an asset is reviewed, and adjusted, if applicable, at each financial year-end.

### IMPAIRMENT

Property, plant and equipment and intangible assets that have a finite useful life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For assets not carried at a revalued amount, the total impairment loss is recognised in the net surplus or deficit for the year.

If an asset's carrying amount exceeds its recoverable amount the carrying amount is written down to the recoverable amount and an impairment loss is recognised. For revalued assets the impairment loss is recognised against the revaluation reserve for that class of asset. Where that results in a debit balance in the revaluation reserve, the balance is recognised in the net surplus or deficit for the year.

Value in use is depreciated replacement cost for an asset where the future economic benefits or service potential of the asset are not primarily dependent on the asset's ability to generate net cash inflows and where Heritage New Zealand Pouhere Taonga would, if deprived of the asset, replace its remaining future economic benefits or service potential.

### 14. INCENTIVE FUND AND OTHER GRANTS

Heritage New Zealand Pouhere Taonga may approve grants out of the Incentive Fund, Canterbury Earthquake Heritage Buildings Trust funds, bequests and other specified funds in addition to its operating income.

Grants awarded by Heritage New Zealand Pouhere Taonga are discretionary grants. Discretionary grants are those grants where Heritage New Zealand Pouhere Taonga has no obligation to award on receipt of the grant application.

Grants are approved subject to conditions and uplifted only when those conditions have been satisfied. Approved grants are recognised as expenditure and held as an expense provision until they are lifted by the grantee. Where there is doubt that the conditions of a grant will be met, the provision will be reversed until there is confidence that the terms of the grant are likely to be satisfied. If it is determined that all or part of a grant will not be uplifted, the grant is returned to the fund for redistribution.

<b>Total employee entitlements</b>	<b>1,473</b>	<b>1,420</b>

### SHORT-TERM EMPLOYEE ENTITLEMENTS

Employee entitlements that Heritage New Zealand Pouhere Taonga expects to be settled within 12 months of balance date are measured at undiscounted nominal values based on accrued entitlements at current rates of pay.

These include salaries and wages accrued up to balance date, annual leave earned but not yet taken at balance date, long service leave entitlements expected to be settled within 12 months and sick leave. Heritage New Zealand Pouhere Taonga also recognises a liability and an expense for bonuses where it is contractually obliged to pay them, or where there is a past practice that has created a constructive obligation.

### LONG-TERM EMPLOYEE ENTITLEMENTS

Entitlements that are payable beyond 12 months, such as long service leave have been calculated on an actuarial basis. The calculations are based on the likely future entitlements accruing to staff, based on years of service, years to entitlement, the likelihood that staff will reach the point of entitlement and contractual entitlement information.

The value of the long service leave obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Due to the small size of the provision, no salary inflation factor has been allowed.

<sup>33</sup> Board fees accrued over the last three years but not invoiced.

Payments of \$6,900 were made to committee members who were not Board members during the financial year (2021: \$7,000). These committee members are appointed by the Board. No Board members received compensation or other benefits in relation to cessation (2021: \$nil).

Heritage New Zealand Pouhere Taonga has effected Directors and Officers Liability and Professional Indemnity Insurance cover during the financial year in respect of the liability or costs of Board members and employees.

## 18. RELATED PARTY TRANSACTIONS

Heritage New Zealand Pouhere Taonga is a wholly owned entity of the Crown. The Government significantly influences the role of Heritage New Zealand Pouhere Taonga in addition to being its major source of revenue and equity funding.

Heritage New Zealand Pouhere Taonga enters into transactions with entities that are under common control of the Crown. These include government departments, state-owned enterprises and other Crown entities. Those transactions that occur within a normal supplier or client relationship, on terms and conditions no more or less favourable than those which it is reasonable to expect Heritage New Zealand Pouhere Taonga would have adopted if dealing with that entity at arm's length in the same circumstances have not been disclosed as related party transactions.

There were no close family members of key management personnel contracted by Heritage New Zealand Pouhere Taonga during the 2022 year (2021: nil).

There are no other transactions carried out with related parties other than those described above.

## 19. CONTINGENCIES

Contingent liabilities and assets are disclosed at the point at which the contingency is evident.

At 30 June 2022, there is a contingent liability for backdated remuneration increases arising from negotiations with the PSA for a new collective agreement. The amount of this liability cannot be estimated as negotiations have not been completed.

At 30 June 2022, potential liabilities resulting from heritage covenants previously negotiated are estimated to be \$20,000 (June 2021: \$20,000).

During the ordinary course of its activities, the Group is subject to legal matters from time to time. As at balance date there are no legal matters that, in the Group's view, are likely to result in economic outflows.

## 20. EVENTS AFTER BALANCE DATE

There were no events after balance date.

## 21. FINANCIAL INSTRUMENTS

Heritage New Zealand Pouhere Taonga is party to financial instruments as part of its everyday operations. These financial instruments include cash and cash equivalents, term deposits, debtors and creditors. Revenues and expenses in relation to all financial instruments are recognised in the Statement of Comprehensive Revenue and Expense. All financial instruments are recognised in the Statement of Financial Position.

## CARRYING AMOUNTS OF FINANCIAL INSTRUMENTS BY CATEGORY

## 22. FINANCIAL INSTRUMENT RISKS

Heritage New Zealand Pouhere Taonga's activities expose it to a variety of financial instrument risks, including market risk and credit risk. Heritage New Zealand Pouhere Taonga has a series of policies to manage the risks associated with financial instruments and seeks to minimise exposure from financial instruments. These policies do not permit transactions of a speculative nature.

### FAIR VALUE INTEREST RATE RISK

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Heritage New Zealand Pouhere Taonga's exposure is limited to its bank deposits which are held at fixed rates of interest.

### CREDIT RISK

Credit risk is the risk that a third party will default on its obligations to Heritage New Zealand Pouhere Taonga, causing Heritage New Zealand Pouhere Taonga to incur a loss.

Due to the timing of its cash inflows and outflows, Heritage New Zealand Pouhere Taonga invests surplus cash with registered banks.

Heritage New Zealand Pouhere Taonga's maximum credit exposure for each class of financial instrument is represented by the total carrying amount of cash and cash equivalents (note 9) and net debtors (note 10). There is no collateral held

as security against these financial instruments, including those instruments that are overdue or impaired.

Heritage New Zealand Pouhere Taonga has no significant concentrations of credit risk, as it has a small number of credit customers and only invests funds with registered banks with specified Standard and Poor's credit ratings.

## 23. COVID-19

During 2021-22 Covid-19 affected both income and expenditure (refer note 24) and the risk of new covid-19 variants means we are still operating in an uncertain environment. However, management expects to see progress towards a more business-as-usual year in 2022-23, with the removal of overseas visitor restrictions and a highly vaccinated population meaning a lower likelihood of other restrictions. Management are confident that Heritage New Zealand Pouhere Taonga will continue to be a going concern and meet its cash flow requirements in the foreseeable future.

## 24. EXPLANATION OF MAJOR VARIANCES AGAINST BUDGET AND PRIOR YEAR

Revenue from the Crown exceeded budget by \$650,000 because additional funding was received for the Turnbull House seismic upgrade and refurbishment; and for the additional grants being provided under the Mātauranga Māori scheme.

Property revenue was down on budget by \$400,000 due to the impact of Covid-19 on travel, and on functions such as concerts and weddings. Admissions were lower by 30-50% at many of our properties, with Auckland and Northland properties particularly affected by changes in alert levels and lockdowns.

Grant and bequest income was \$265,000 lower than budget because the funding from the NZ Lottery Board Environment and Heritage Fund (\$1M) for Antrim House will now be received in the 2022-23 financial year. Offsetting this was an unexpected but very welcome bequest of \$700,000 from the estate of G Lewis-Winter that will also be used for the same project – much needed repairs to and repainting of Antrim House, our National Office in Wellington.

Interest income exceeded budget by \$250,000 due to improved interest rates and the receipt of \$24.7M capital funding from the Crown for the Turnbull House seismic upgrade and refurbishment project. Interest received on this funding will be applied to this project.

The Mātauranga Māori project accounts for \$300,000 of the unspent administration budget. This budget was provided for the running of wānanga to identify, design and implement courses to provide training in traditional knowledge. Unfortunately, Covid-19 has meant that most of these wānanga have been delayed due to lockdowns, closure of marae, inability to travel, uncertainty for hui participation, and of course isolation periods and illness from the virus itself. Similarly, survey work planned for the Tohu Whenua programme over the summer had to be postponed due to Covid-19.

The remaining variance is due to lower spend on a variety of standard operating costs, including postage and office supplies, mainly due to increased use of digital solutions. These savings were used to fund improvements in the IT area as we continue our transition to a cloud-based system and replace some of our ageing applications that are no longer supported.

Personnel costs are \$850,000 below budget due to vacancies that we have been unable to fill in the current tight labour market and a reduction in annual leave balances. In addition, some provision was made in the budget for remuneration increases arising from negotiations with the PSA for a new collective agreement, but these were not completed by 30 June.

Lower property costs partly reflect lower retail and function income, but the major reason has been the delay in executing

maintenance work due to Covid-19 affecting the availability of tradespeople to perform the work and longer lead times for the supply of construction materials.

Grants expenditure is \$960,000 over budget due mainly to grants allocated to active Anglican parishes for the preservation and maintenance of churches designed by Frederick de Jersey Clere. These are funded from a bequest received in a previous year from a former staff member and heritage advocate with the condition it was to be used for this specific purpose.

The marketing variance of \$430,000 less than budget is due to delays and changes in plans – with postponements and cancellations resulting from Covid-19 restrictions and the availability of key staff due to illness and vacancies. It also reflects a decision by management to bring forward the replacement of our existing website, a capital project that will be implemented in the 2022-23 financial year.

Travel was reduced by almost 50% (\$260,000) during the year as activities were cancelled or postponed until next year due to Covid-19 travel restrictions and to minimise the health risk to our employees and others.

Within the Statement of Financial Position, bequests and specified funds increased by \$25M since June 2021 due to \$24.7M of Crown investment received for the upgrade and repurposing of Turnbull House. This funding is also reflected in the \$24M increase in cash and term deposits.

Prepayments and receivables at 30 June 2022 are \$1.2M higher than budget and the previous year because it includes prepaid insurance for the 2022-23 year. The budget assumed it would be paid in the 2022-23 year.

Property plant and equipment are \$4M higher than budget due to the revaluations at 30 June 2021, which were not budgeted.

Work-in-progress is well below budget as construction work on the Hokitika Government Buildings has not commenced. The project was in the very early planning stages when the budget was prepared, and timeframes were uncertain. Engineering assessments and procurement work were carried out during 2021-22.

The liability for other grants increased by almost \$700,000 due to the allocation of grants for de Jersey Clere churches, offset by Canterbury Earthquake Heritage Trust grants paid during the year. Refer note 14 for further information.

## INDEPENDENT AUDITOR'S REPORT

### TO THE READERS OF HERITAGE NEW ZEALAND POUHERE TAONGA'S FINANCIAL STATEMENTS AND PERFORMANCE INFORMATION FOR THE YEAR ENDED 30 JUNE 2022

The Auditor-General is the auditor of Heritage New Zealand Pouhere Taonga (the 'Entity'). The Auditor-General has appointed me, Pam Thompson, using the staff and resources of Deloitte Limited, to carry out the audit of the financial statements and the performance information, of the Entity on his behalf.

#### Opinion

We have audited:

- the financial statements of the Entity on pages 61 to 85, that comprise the statement of financial position as at 30 June 2022, the statement of comprehensive revenue and expense, statement of movement in equity and statement of cash flows for the year ended on that date and the notes to the financial statements including a summary of significant accounting policies and other explanatory information; and
- the performance information of the Entity on pages 24 to 57.

In our opinion:

- the financial statements of the Entity on pages 61 to 85:
  - present fairly, in all material respects:
    - its financial position as at 30 June 2022; and
    - its financial performance and cash flows for the year then ended; and
  - comply with generally accepted accounting practice in New Zealand in accordance with Public Benefit Entity Standards Reduced Disclosure; and
- the performance information on pages 24 to 57:
  - presents fairly, in all material respects, the Entity's performance for the year ended 30 June 2022, including:
    - for each class of reportable outputs:
      - its standards of delivery performance achieved as compared with forecasts included in the statement of performance expectations for the financial year; and
      - its actual revenue and output expenses as compared with the forecasts included in the statement of performance expectations for the financial year; and
  - complies with generally accepted accounting practice in New Zealand.

Our audit was completed on 20 October 2022. This is the date at which our opinion is expressed.

The basis for our opinion is explained below. In addition, we outline the responsibilities of the Board and our responsibilities relating to the financial statements and the performance information, we comment on other information, and we explain our independence.

## **Basis for our opinion**

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Responsibilities of the auditor section of our report.

We have fulfilled our responsibilities in accordance with the Auditor-General's Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Responsibilities of the Board for the financial statements and the performance information**

The Board is responsible on behalf of the Entity for preparing financial statements and performance information that are fairly presented and comply with generally accepted accounting practice in New Zealand. The Board is responsible for such internal control as they determine is necessary to enable them to prepare financial statements and performance information that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements and the performance information, the Board is responsible on behalf of the Entity for assessing the Entity's ability to continue as a going concern. The Board is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless there is an intention to merge or to terminate the activities of the Entity, or there is no realistic alternative but to do so.

The Board's responsibilities arise from the Crown Entities Act 2004.

## **Responsibilities of the auditor for the audit of the financial statements and the performance information**

Our objectives are to obtain reasonable assurance about whether the financial statements and the performance information, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit carried out in accordance with the Auditor-General's Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures, and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of readers, taken on the basis of these financial statements and the performance information.

For the budget information reported in the financial statements and the performance information, our procedures were limited to checking that the information agreed to the Entity's statement of performance expectations.

We did not evaluate the security and controls over the electronic publication of the financial statements and the performance information.

As part of an audit in accordance with the Auditor-General's Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

Also:

- We identify and assess the risks of material misstatement of the financial statements and the performance information, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board.
- We evaluate the appropriateness of the reported performance information within the Entity's framework for reporting its performance.
- We conclude on the appropriateness of the use of the going concern basis of accounting by the Board and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements and the performance information or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements and the performance information, including the disclosures, and whether the financial statements and the performance information represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Our responsibilities arise from the Public Audit Act 2001.

### Other information

The Board is responsible for the other information. The other information comprises the information included on pages 6 to 23 and page 60, but does not include the financial statements and the performance information, and our auditor's report thereon.

Our opinion on the financial statements and the performance information does not cover the other information and we do not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the financial statements and the performance information, our responsibility is to read the other information. In doing so, we consider whether the other information is materially inconsistent with the financial statements and the performance information or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on our work, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Independence

We are independent of the Entity in accordance with the independence requirements of the Auditor-General's Auditing Standards, which incorporate the independence requirements of Professional and Ethical Standard 1: *International Code of Ethics for Assurance Practitioners* issued by the New Zealand Auditing and Assurance Standards Board.

Other than in our capacity as auditor, we have no relationship with, or interests, in the Entity.
